13. Presented to His Honour and assented to, 366.

Amendments proposed and negatived to the motion "That Mr. Speaker do now leave the Chair":*

1. (1901). That this House desires to express its regret that the Government has taken no steps to discover and bring to trial the person or persons who destroyed or removed from the vault in the Parliament Buildings, the box containing the ballots and other papers relating to the election in the West Riding of the County of Elgin, held in January, 1899. And also regrets the declaration of the Government that no steps will be taken to discover and bring to trial such person or persons, 63. Negatived, 80.

That this House regrets that the Government, with a view to promoting Colonization, has not in Townships in the Free Grant Districts, which are fitted for settlement, disposed of the pine timber to the settler subject to timber dues, and has not in townships of a similar nature, which are under timber license, retained the timber, other than pine, for the actual settler, 150-1.

That this House regrets that provision has not been made for preventing the cutting, for saw-log purposes, the small pine logs of less than ten inches at the small end, 194-5.

* The Amendments set out here are "Want of Confidence" motions.

SUPPLY—*Continued.*

That this House observes with anxiety the evidence of dissatisfaction in the public mind with the working and results of the educational system of the Province, and is of opinion that a scheme should be devised by which the sphere of the Public Schools may be remodelled, and where necessary widened and enlarged, with the view of affording to those pupils whose education begins and ends in such schools, such further and increased educational advantages as may be practicable. This House is also of opinion that, among other desirable improvements in our educational system there should be created a Consultative Council or Body, for the assistance of the Minister of Education, on which Council should be represented all the teaching bodies in the Province—the acceptance of the advice of such Council, however, to be optional with the Minister. And this House is also of the opinion that steps should be taken to reduce the price of school books, 206.

That by the Certificate of the Registrar of the Court of Appeal of Ontario, dated the 19th day of October, 1900, and presented to this House on the first day of the present Session, it appears that the appeal from the judgments of the Honourable Mr. Justice Osler and the Honourable Mr. Justice Meredith, in the matter of the election of a member of this House for the Electoral District of North Waterloo, on the 16th and 23rd days of May, 1899, was, on the said 19th day of October, 1900, dismissed; and this House regrets that no steps have been taken since the dismissal of the said appeal for the prosecution of John H. Wildfong, who was proved, as set out in the Certificate of the said Judges, to have fraudulently defaced and injured sixteen ballots at the polling subdivision No. 3, Berlin, at which he was Deputy Returning Officer, and for the prosecution of Harry Cummings, Junior, who was proved, as set out in the Certificate of said Judges, to have fraudulently miscounted twenty-one ballots which had been cast for the defeated candidate at polling subdivision No. 2, Berlin, where he was Deputy Returning Officer, and who was also proved to have defaced and injured two ballots after they had been duly marked and cast for one of the candidates at the said election, 216-17.

2. (1902). That in all future agreements made between the Commissioners of Queen Victoria Niagara Falls Park and any other person, or persons, power shall be reserved to the Provincial Government to, at any time, put a stop to the transmission of electricity and pneumatic power, beyond the Canadian Boundary—and that in the opinion of this House the waters of the Niagara River and its tributaries, as well as the waters of other streams, where necessary, should, at the earliest moment, and subject to existing agreement, be utilized directly by the Provincial Govern-

SUPPLY—*Continued.*

ment, in order that the latter may generate and develop electricity and pneumatic power for the purposes of light, heat and power, and furnish the same to municipalities in this Province at cost, 85. Negatived, 105.

That in the opinion of this House it is the duty of the Provincial Government to, without delay, urge upon the Government of Canada the necessity of taking steps to obtain for the people of this Province cheaper rates for the transportation of agricultural products, 164-5.

That this House regrets that the Government, in view of the grant made for the survey of the Timiskaming and Northern Railway at the last Session, has taken no sufficient steps to secure from the Dominion Government a subsidy of at least $6,400 *per* mile for this Railway, to which the Province is entitled, in view of the large amounts expended on railways in other Provinces by the Federal Government. This House also regrets that in view of the promise to undertake the immediate construction of this railway, no plans and profiles of the lands surveyed, together with complete reports and estimates showing how the total cost of construction is arrived at, have been placed before the House, 229.

That this House denounces the acts of the persons who defaced, switched, tampered with and stole ballots which had been duly and lawfully cast by Electors in the recent elections in West Elgin and North Waterloo, and also denounces the destruction in the vaults of the Parliament Buildings, in Toronto, of the ballot papers and other documents relating to the West Elgin election, by which the prosecution and conviction of the guilty parties was rendered more difficult. And this House expresses its dissatisfaction and regret that not one of the malefactors connected with the above mentioned violations of the law has been brought to justice or punished for his offence, while one person connected with the West Elgin frauds has been appointed to a position of trust and emolument by the Government of the Province, 256.

3. (1903). That this House regrets that the provisions of section 27 of "The Act respecting the Representation of the People in the Legislative Assembly," have not been complied with, by the issue of a Writ for an Election to fill the vacancy in the Representation of the North Riding of Renfrew, in this House, in accordance with the Warrant of the Speaker of this House, and directs that the said Writ be issued without further delay, 87.

SUPPLY—*Continued.*

That this House condemns the action of the Crown Lands Department in selling by private sale, about May 1st, 1902, a timber limit in the Township of Rutherford, for the sum of $250, which limit was shortly afterwards sold for the sum of $9,000, recommends that in future no sale of Crown Lands be made except by public competition, 310.

4. (1904). That this House approves of the payment under the authorization of the Government of the Province, of the wages owing to the foremen, mechanics, workmen, clerks, labourers, and other working men in the employment of the Consolidated Lake Superior Companies at Sault Ste. Marie, Ontario, in order to prevent distress and avoid disturbance, but disapproves of the payments, under such authorization, made to the following persons, *viz*:—C. Shields, President, $6,693.55, being salary for August and September and a portion of October, at the rate of $30,000 *per* year; William Coyne, Assistant to President, $1,606.45, being salary for August and September and a portion of October, at the rate of $7,200 *per* year; A. E. Elliott, Counsel, $1,338.71, being salary for August and September and a portion of October, at the rate of $6,000 *per* year; J. E. Irving, Counsel, $1,338.71, being salary for August and September and part of October, at the rate of $6,000 *per* year; H. C. Hamilton, Counsel, $610, salary as Counsel; D. D. Lewis, Superintendent Steel Company, $2,645.16, being salary for August and September and part of October, at the rate of $12,000 *per* year; C. Moore, Real Estate Agent, $833.34, being salary for August and September, at the rate of $5,000 *per* year; T. E. Donahue, Secretary to President, $602.42, being salary for August and September and part of October, at the rate of $2,700 *per* year; J. S. Wyon, Controller and Assistant Secretary, $1,200, being salary for August and September, at the rate of $7,200 *per* year; E. A. Sjosteat, Metallurgist, $997, being salary for August and September, at about the rate of $6,000 *per* year, and further payments of a similar nature, 91.

That this House condemns the inaction of the Government on the subject of Law Reform, and especially for its failure to act upon the statement made four years ago by the Attorney-General, that he hoped to introduce at the then next Session of the Legislature, a comprehensive measure dealing with the County and Division Courts, 332.

That this House regrets that the Government paid Sir John A. Boyd and Chief Justice Falconbridge, for their services as Commissioners in the Gamey charges, last spring, the sum of $3,500.00 each (being upwards of $125.00 *per* day each for twenty-seven days), while they were during all this time in receipt of their full pay as Judges of the High Court of Justice for Ontario, 335.

SUPPLY—*Continued.*

5. (1905). That the discontinuance of the direct grants to the Cattle Breeders' Association, the Swine Breeders' Association, the Sheep Breeders' Association, and the Poultry Association is not in the public interest, 175.

That this House regrets the action of the Government in engaging L. E. Thorne, a citizen of the United States and a resident of Port Huron, Mich., at the time he was so engaged, at $200 *per* month, to perform work in connection with the Provincial Secretary's Department, that in the opinion of this House could have been as thoroughly performed by one of the many duly qualified citizens of Canada, 197.

6. (1906). That this House regrets that the Provincial Treasurer, by selling the securities of the Province at 96 *per cent.* of their par value, lost to the Province the sum of at least $240,000, and at the same time impaired the credit of the Province by making it more difficult to raise such further sums as may be required for the Public Service, without loss to the Treasury Department, 188. Negatived, 205.

7. (1907). That this House regrets that the Government has not seen fit to require, in contracts for Central Prison labour, that all convict-made goods be labelled such, 306.

That this House regrets that the Government has not shewn greater diligence in dealing with the San Jose Scale and other pests that infest the orchards of Ontario, greatly reducing the quantity and impairing the quality of the fruit and entailing heavy loss on the producers, 310-12.

That in the opinion of this House, as to lands now or hereafter opened for settlement, the *bona-fide* settler should have the free grant of the lands, and all timber and minerals thereon or thereunder, including petroleum, subject to proper restrictions and regulations to prevent location of lands unfit for settlement for agricultural purposes. That actual settlement in Ontario should be encouraged, and nothing be permitted to prevent or retard *bona-fide* settlement, or the development of mineral properties, provided that where timber licenses cover land required for settlement, or mineral development, equitable arrangements be made protecting the just rights of licensees, 314-16.

8. (1908). That this House regrets the alarming yearly increase in the ordinary controllable expenditures of the Province during the last four years, noticeably those under the heads of Civil Government and Contingencies; the expenditure under the former (Civil Government) having risen from $344,006 in 1904, to

SUPPLY—*Continued.*

$538,475 in 1907, and that under the head of Contingencies, from $78,442 in 1904, to $165,036 in 1907, and also regrets that the Government is open to the charge of carelessness and extravagance in several other items of large expenditure; 195-6.

9. (1909). That this House regrets, that when a proper classification of current as distinguished from Capital Receipts and Expenditures, has been made, it clearly appears that the Current Expenditures for 1908, exceeded, the Current Receipts, and this House views with alarm the large increase in ordinary controllable expenditures of the Province during the past four years, particularly those under the heads of "Civil Government" and "Miscellaneous," the expenditure under Civil Government having risen from $344,006 in 1904 to $518,823.91 in 1908, and that under the head of "Miscellaneous" from $139,007.17 in 1904 to $468,131.30 in 1908, and this House, especially in view of the deficit of last year, strongly urges a curtailment of expenses, particularly under the heads mentioned. This House further regrets the tremendous increase in the expenditures of this Province that are made without the annual vote of this Legislature, which expenditures last year amounted, under the three heads of "Special Statutes," "Treasury Board Minutes" and "Special Warrants," to the large sum of $1,486,804, or seventeen and a half per cent. of the total expenditure, 136. Negatived, 137.

10. (1910). That this House regrets that when a proper classification of current, as distinguished from Capital Receipts and Expenditures has been made, it clearly appears that the Current Expenditures for 1909 exceeded the current Receipts, and this House therefore regrets that the Government is gradually depleting our Forest Wealth, while doing nothing by way of Re-forestation, or otherwise, to make this large source of Revenue continuous and abiding.

That this House further regrets that, because of the abolition of the Model Schools and of unwarranted and undesirable changes in Regulations, the result is that about ten *per cent.* of the Public Schools of this Province are without qualified Teachers and there is confusion generally as to text books and their supply.

That this House further regrets that, after the Government had spent a large amount of the moneys of the Province in making the necessary literary selections for the Public School readers, in furnishing illustrations, plates, electro-plating and in actually setting up the type, etc., that it should have handed the printing of the said readers over to a Toronto Departmental Store

SUPPLY—*Continued.*

at a price which does not at all represent the whole cost of the said readers, while regulating prices so as to induce the public generally to deal direct with the said Toronto Departmental Store, to the detriment and injury of the whole retail trade, in all lines, of this Province.

This House further says that the said readers are inferior to the old readers, both as to contents and makeup, and the Primer is entirely wrong in conception, absolutely unfit for use in primary classes and should be immediately withdrawn.

This House further regrets that no practical steps have been taken by the Government to establish a system of Technical Schools throughout the Province, in which the Mechanic and Artizan may receive training, supplemental to his practical training in the workshop.

This House, while hereby approving of all legitimate means of supplying cheap power to the Municipalities, further regrets that the Hydro-Electric Commission in securing easements for a transmission line did not pursue any systematic and equitable plan for the purpose of said easements, but practised a system of browbeating and dickering entirely unworthy of this Province and one which has led to asbolutely inequitable results as to the amounts paid the farmers for the said easements.

This House views with disappointment and alarm the denial in recent enactments of the fundamental right of the Subject to access to the Courts of Justice for the determination of matters in controversy between Subject and Subject and between Subjects and the Crown, 85. Negatived, 87.

11. (1911). That this House regrets that the Financial Statement issued by the Honourable the Provincial Treasurer is inaccurate and misleading, inasmuch as when current receipts and expenditures are classified even as classified by the present Provincial Treasurer in his Financial Statement of 1905, there is a large deficit last year of $531,878.66.

And this House recognizing the fact that our Forests are our greatest source of Revenue, strongly urges upon the Government the adoption of a proper system of conservation and reforestation, in order that this source of revenue may become perpetual and abiding.

This House further regrets that neither the Honourable the Minister of Education, the Deputy Minister, nor the Superintendent of Education has any practical knowledge whatever of the con-

SUPPLY—*Continued.*

dition of our Rural Schools, and that the result of changes improperly made by this Government has been to increase the cost of education in the Rural Schools by at least fifty *per cent.*, and to necessitate the employing as teachers in a large percentage of said Schools of persons with no qualification whatever, either professional or non-professional.

This House further regrets that this Government, while liberally aiding students in educational courses, that lead to the professions, has taken no practical steps whatever to establish a system of technical and industrial schools throughout the Province, in which the mechanic and the artizan may receive training supplementary to his practical training in the workshop.

This House further deplores the fact, that this Government is apparently of the opinion that increased population is of no benefit to this Province, and this House strongly recommends the adoption of a vigorous and active colonization scheme for peopling Northern Ontario, and regrets extremely that its settlement has been hitherto retarded by the enforcement of laws and regulations that are oppressive to the pioneer, whether prospector, miner or settler.

This House deplores the growing tendency on the part of Members of the Government to introduce Federal issues into our debates, and regrets the organized attempt of Ministers and their supporters to discredit the agreement for better trade relations made between Canada and the United States, which, if consummated, will prove so beneficial to Canada, and especially to the agriculturists, 67. Negatived, 68-9.

12. (1912). That this House, in view of the decision of the Government to appoint Counsel to represent this Province on the argument before the Supreme Court and the Privy Council of the question of the power of the Parliament of Canada to enact in whole or in part Bill No. 3 of the First Session of the 12th Parliament intituled "An Act to Amend the Marriage Act" and commonly known as "The Lancaster Bill," is of opinion that in view of the importance of a uniform marriage law for the whole of the Dominion of Canada, the Government should instruct Counsel for this Province to support the view that the Parliament of Canada has power to enact a bill declaring the validity of all marriages celebrated throughout the Dominion of Canada, 352. Negatived, 353.*

* This motion was proposed in amendment to motion to go into Committee of *Ways and Means*. See Journals, 1896, page 185.
